Description

Operator Comments:

Peakview Operating had previously removed and capped all the old tank battery risers except the one 3" line/risers noted in the inspection report. Peakview planned on keeping the 3" line for future use. The 3" risers had been disconnected and plugged at both ends.
Peakview decided to excavate and cap the risers and completed the work Wednesday August 9, 2017.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
