Operator Comments

Due to anti-collision needs and the variability of directional drilling, our as-drilled BHL could be different than the permitted. Per Rule 317.p Open Hole Logging Exception(doc#400832595), compensated neutron logs have been run on Tedford 3C-28HZ API#0512341795.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
