Weld County, Colorado

Dear Mr. Camp:

The Colorado Oil and Gas Conservation Commission ("COGCC") has adopted guidelines and procedures regarding activities affecting the surface. These rules stipulate an affected surface owner must be given notice in writing by an operator at least seven (7) days on dry lands and fourteen (14) days on irrigated lands prior to beginning subsequent well operations or those operations that will materially impact surface areas beyond the existing access road or well site.

HS Resources, Inc. ("HSR") plans to begin operations to deepen the above referenced oil and gas wells to the 'J' sand formation as soon as the title is approved and receipt of any permits needed from the COGCC are obtained and prior to August 1, 2001.

It is your responsibility to notify the tenant farmer, if applicable, of this proposed operation. The COGCC's brochure for surface owner's containing the rules pertaining to notice of oil and gas operations, reclamation and opportunities for consultation thereon, as well as, the rules of procedure for filing complaints and making applications for hearings is enclosed along with a new HSR brochure. Should you have any questions and/or concerns, please contact our office.

Very truly yours,

**HS RESOURCES, INC.**
