On 11-20-2017, I was contacted by complaint specialist Megan Adamczyk in reference to a noise complaint received for 11-19-2017 by the COGCC about noise occurring in the Windsor area south of the complaints residence.

On 11-21-2017 at approx 1400 hrs I contacted the complainant who said the operation had moved and was no longer in the area. I performed an inspection of the area south of the complaints home and did not find any drilling or work over rig operations in the area. Due to the complainant's statement and no drilling or work over rig activity ion the area this complaint was closed.

All information reviewed and site inspection information were submitted to the COGCC for further review.

No violations of COGCC rules were observed at the time of this inspection
