General Comment:

This inspection performed as a follow up to accident report COGCC document # 401466990. At the time of this inspection the damaged tank has been removed and crews were in the process of re-plumbing battery. Over pressure of tank caused displacement of tank tank top. No liquids were discharged. Damaged was limited to one tank and of plumbing associated with the tank. Ward Petroleum has initiated lock out of all wells until repairs can be made and System Safety Startup Process is completed. Ward will also follow up with root cause analysis report to COGCC via Form 22 Subsequent Accident Report.
