Abigail,

I have reviewed the referenced Form 2A Oil & Gas Location Assessment and have the following comment.

During my review it appears a portion of the proposed disturbance area will overlap onto the 47-Otero sandy loam, 3-9 percent slopes NRCS Soil Map Unit. Therefore, please provide me with the NRCS Map Unit Description for this soil unit and I will add it to this Form 2A.

Please respond to this correspondence by December 30, 2017. If you have any questions, please contact me. Thank you.

Good afternoon Doug,

Attached please find the NRCS Map Unit Description for the 47-Otero sandy loam, 3-9 percent slopes. I also noticed that the Access Road Map Topo B had CR 103 mislabeled as "HIGHWAY 14" and CR 96 is mislabeled as "CR 103". I have attached the corrected Access Road Map.

Thank you!
