

**Photo 1. View of the project area from the northwestern corner facing center.**

**Photo 2. View of the northern portion of the project area from the northwestern corner facing northeastward. Well pad is adjacent to the Pine River.**

**Photo 3. View of the western portion of the project area from the northwestern corner facing southward. Revegetation is progressing with grasses such as smooth brome (*Bromus inermis*), western wheatgrass (*Pascopyrum smithii*), and dropseed (*Sporobolus* sp.). Approximately 1000 musk thistles (*Carduus nutans*) observed within the outer revegetation areas.**

**Photo 4. View of musk thistles that have flowered in the western portion of the project area.**
