 Complaint #s: 200444739/200444737/200444736

Nature of complaint: Odors

Field Inspector Actions:

On 12-3-2017, I was contacted by complaint specialist Megan Adamczyk in reference to several complaints received for 12-1-2017 and 12-3-2017 by the COGCC about odors occurring in the Erie area south of the Anadarko, Papa Jo location.

On 12-3-2017 at approx 1600 hrs I performed a complete site inspection of the Papa Jo location and the neighborhoods south of the locations. At the time of inspection, I observed the drilling rig performing drilling operation on location. I contacted Travis Kruckenberg from Anadarko who indicated the rig did not start drilling operation until 12-2-2017 at approx. 0900 Hrs. I reviewed location records, which did not show any abnormal drilling operations at the time of the complaints.

At the time of the inspection all lighting on location appeared to be pointed toward the ground and center of location. As part of the inspection I checked the area of the complaints residence for odors and at the time of the inspection I did not detect any odors off location. At the time of the inspection of the drilling rig Travis also indicated Anadarko was also using an odor neutralizer to mitigate odors at the drilling rig.

All information reviewed and site inspection information were submitted to the COGCC for further review.

No violations of COGCC rules were observed at the time of the inspection

Corrective Action:

Date:

**Well Drilling**

**Rig:** Rig Name: Extreme Pusher/Rig Manager: Travis Kruckenberg  
 Permit Posted: Yes Access Sign: Yes

**Well Control Equipment:**

Pipe Ram: YES Blind Ram: YES Hydril Type: YES  
 Pressure Test BOP: Pass Test Pressure PSI: \_\_\_\_\_ Safety Plan: YES

**Drill Fluids Management:**
