Complaint # 200444655

Nature of complaint: Noise

Field Inspector Actions:

On 11-14-2017, I was contacted by complaint specialist Megan Adamczyk in reference to a noise complaint received for 11-14-2017 by the COGCC about possible fracking tower and noise occurring in the Windsor area somewhere around the complaints residence.

On 11-17-2017 at approx 1000 hrs I attempted to contact the complainant. I performed an inspection of the area around the complaints home and did not find any drilling or work over rig operations in close proximity to the area which could be causing the noise experienced by the complaint. Due to the complainant's statement and no drilling or work over rig activity in close proximity to the area this complaint was closed.

All information reviewed and site inspection information were submitted to the COGCC for further review.

No violations of COGCC rules were observed at the time of this inspection

Corrective Action:
