

Photo 1. View of the project area from the northeastern corner facing center.

Photo 2. View of the northern portion of the project area from the northeastern corner facing westward. Revegetation is sparse and weedy. Some desirable species such as Indian ricegrass (*Achnatherum hymenoides*) and dropseed (*Sporobolus* sp.) are present, as well as weedy annual species such as Russian thistle (*Salsola tragus*) and kochia (*Kochia scoparia*).

Photo 3. View of the eastern portion of the project area from the northeastern corner facing southward.

Photo 4. View of the western portion of the project area from the northwestern corner facing southward.

Photo 5. Birdseye view of weedy vegetation (Russian thistle) within the western project area.
