CORRECTIVE ACTIONS:

1 CA# 84078

Corrective Action: Remove culverts and perform reclamation in accordance to COGCC 1000 series reclamation rules at the battery location. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed. The prime time frame for a spring 2017 seeding has passed, to take advantage of a fall seeding, revegetation activities shall be complete no later than 11/15/2017.

Date: 11/15/2017

Response: CA COMPLETED

Date of Completion: 12/08/2017

Operator Comment: BBC has had difficulty contacting the absentee surface owner to discuss plans for reclaiming the former tank-battery location and recently sent the surface owner a certified letter outlining plans for reclaiming the area. Pending either contact with the landowner or documentation that the letter was delivered, BBC will proceed with removing the remaining road base, hauling in topsoil, and reseeding the area. Timing for completion of this work is weather dependent but will be completed by 4/30/18.

COGCC Decision: **Not Approved**

COGCC Representative: This is an acknowledgement that the document was received. Operator has failed to perform reclamation activities per Rule 1004.a. and has failed to perform the required work per the previous corrective action inspection. Operator is over three (3) years out of compliance with Rule 1004.a. This issue may be forwarded onto Enforcement for further review.
