H2S REPORTING

Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.

Gas Analysis Report must be attached.

H2S Concentration: _____ in ppm (parts per million) Date of Measurement or Sample Collection _____

Description of Sample Point:

Absolute Open Flow Potential _____ in CFPD (cubic feet per day)

Description of Release Potential and Duration (If flow is not open to the atmosphere, identify the duration in which the container or pipeline would likely be opened for servicing operations.):

Distance to nearest occupied residence, school, church, park, school bus stop, place of business, or other areas where the public could reasonably be expected to frequent: _____

Distance to nearest Federal, State, County, or municipal road or highway owned and principally maintained for public use: _____

Description

COA Type	Description

General Comments

User Group	Comment	Comment Date
Permit	No conductor was set for this well. Checked box to AL the location with operator concurrence.	12/13/2017
Permit	Form is being filed in reference to inspection doc 680102435 noting that four wells were AL'd and thirteen others still had XX status. The four that had conductors were plugged as of 7/25/17. This pad along with 27 other locations has an approved 502.b variance, acquired by Linn Energy prior to selling to Berry, for delay in plugging conductors if Berry chooses to close them instead of refileing.	12/06/2017
