**General Comments**

<b><u>User Group</u></b>	<b><u>Comment</u></b>	<b><u>Comment Date</u></b>
Permit	Form is being filed in reference to inspection doc 680102435 noting that four wells were AL'd and thirteen others still had XX status. The four that had conductors were plugged as of 7/25/17. This pad along with 27 other locations has an approved 502.b variance, acquired by Linn Energy prior to selling to Berry, for delay in plugging conductors if Berry chooses to close them instead of refiling. No conductor was set for this well.	12/13/2017
