Hi Carlos,

I submitted the attached Monthly Update for the A27 (Release # 446199 and Remediation #9748) via form 4 submittal. I know that this is not the correct submittal mechanism but I still cannot get the location in the Form 27 submittal to allow me to change so that I can submit. I believe that Greg is looking into this. However, I still thought that submitting via the database was important so that it can be publicly accessible and I can re-submit via the correct Form 27 when it's ready. Please let me know if you have any questions or need more information. Thank you,

Paul
