Leased Premises – See Attached Exhibit A

SUA Stipulations:

1) Oil & Gas Operations Area (OGOA)

Prior to beginning operations on an OGOA, Lessee will conduct a final survey of the OGOA and the related Access Road and provide Owner with the final survey plat and a site plan.

Owner will have three (3) weeks to review the documents for each OGOA. Owner may request modifications, by describing the modifications requested and citing specific reasons for the request.

2) Roads, Pipelines & Powerlines

Lessee may construct, operate, and maintain one or more access roads on the Property in accordance with the terms of this Agreement. Each Access Road will connect an OGOA with a public road in the most reasonably direct manner possible.

The driving surface of an Access Road will be limited to thirty (30) feet in width, and the entire Access Road width, including "fill" and shoulder, will not exceed twenty-seven and one-half (27-1/2) feet on either side of the Access Road centerline.

If cattle guards are installed, wire gates will also be installed adjacent to such cattle guards to allow the movement of cattle between pastures.

Lessee will install lockable gates at all points where an Access Road enters or exits the Property. All gates will be locked at all times.

Lessee may construct, operate, and maintain flow lines for the transportation of crude oil, natural gas, other gaseous or liquid hydrocarbons only within the OGOA area.

Lessee may construct, operate, and maintain electrical power and communication lines, at locations on the Property approved in advance by Owner.

4) Aesthetics

If requested by Owner or governmental authority, Lessee will establish sight barriers around any OGOA areas sufficient to mask from public ground view producing operations (such as wellheads, stock tanks, compressors, etc. but not drill rigs). A sight barrier will meet the requirements of governmental authority and be maintained during the life of operations within the applicable OGOA and may consist of vegetation appropriate for the area.

5. Size of Oil and Gas Operating Areas ("OGOAs"). See Exhibit B.

6. Interim Reclamation. See Exhibit C.

EXHIBIT A

PARCEL A – ADAMS COUNTY

**THE FOLLOWING DESCRIBED TRACTS OF LAND, ALL BEING LOCATED IN TOWNSHIP 3 SOUTH,
RANGE 65 WEST OF THE 6TH P.M.**

Section 13: ALL

Section 15: the West ½ and the Southeast ¼

Section 22: All

Section 26: All except the lands covered by the Reserve 3-65 26 1H well.

Section 27: All
