REMEDIAL ACTION PLAN

SOURCE REMOVAL SUMMARY

Describe how source is to be removed.

The pit is to be demolished. The pit liner and other materials in contact with the contents (produced water) will be disposed of as E&P waste. Other materials will be disposed of as solid waste. All waste will be disposed at an approved landfill.

REMEDIATION SUMMARY

Describe how remediation of existing impacts to soil and groundwater is to be accomplished (i.e. summarize remedial action plan). Provide a brief narrative description including: technical justification, schedule for implementation, estimated time to attain NFA status, plus plans and specifications for the selected remedial action technology.

Soil beneath the pit will be sampled as described in the site investigation plan. Impacted soil, if any, will be removed and disposed of at an approved landfill.
