Gentlemen:

In your letter of July 27, 1973, you stated that this well was sold to Fort Worth Pipe and Supply Company and that they plugged and abandoned it and should have filed the plugging report with us.

On July 30, 1973, I called to let you know that we had not received the plugging report from them. To date, we still have not received the report.

Your early attention in filing the report or getting Fort Worth Pipe and Supply Company to file it will be appreciated.

Very truly yours,

H. H. Morrell  
Senior Petroleum Engineer
