Notice of intention to drill X
Notice of intention to change plans _____
Notice of date for test of water shut-off _____
Report on result of test of water shut-off _____
Notice of intention to re-drill or repair well _____
Notice of intention to clean out well _____
Statement of shooting _____
Statement of perforating _____
Notice to pull or otherwise alter casing _____
Notice of intention to abandon well _____
Report of work done on well since previous report _____

Following is a (notice of intention to do work) January 11 1954
(~~report of work done~~) (On-land) (patented) described as follows:

Colorado	Logan	Dale
State	County	Field
<u>4</u>	<u>W. E. Tetsell, Jr.</u>	<u>SW/4 Section 14</u>
(Well No.)	(Lease)	(Sec. and $\frac{1}{4}$ Sec.)
		<u>8N</u>
		(Twp.)
		<u>53W</u>
		(Range)
		<u>-</u>
		(Meridian)

The well is located 330 ft. (~~WN~~) of North Line and 405 ft. (E) of East Line, SW/4 Section 14-8N-53W.
(S) (~~WN~~)

The elevation above sea level is * ft. *To be reported later.

Details of Plan of Work: (State names of and expected depths to objective sands; Show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work.)

Request authority to move location 75 feet due east of prescribed location in C NW NW SW Section 14-8N-53W because of the location of the North Sterling Irrigation Ditch which runs through the lease.

We propose to drill the above well to an approximate depth of 4800 feet as a continuation of development of the Muddy and Dakota sandstone reservoirs underlying this lease and to meet offset production.

8 5/8-inch surface casing will be cemented at approximately 600 feet.

In the event commercial production is encountered 5 1/2-inch casing will be cemented at or near total depth.

We will Stratafrac the productive interval if necessary.

Approved: JAN 15 1954 (Over)
