Comment: [Inspection #675103784](#) required operator to perform reclamation on access road and location, and remove pipe equipment from the location. Pipe riser equipment have not been removed and remains on the current fenced location and areas of the historic pit. Operator appears to have performed reclamation on areas of the well, however large sections of the access road to the north have not been reclaimed. Original corrective action and corrective action date remains applicable.

Corrective Action:	Perform reclamation in accordance to COGCC 1000 reclamation requirements; Remove pipe equipment and debris. Reclaim access road including, but not limited to, compaction alleviation, re-grading/re-contouring and establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels on road and areas of the location not progressing. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed. Revegetation activities shall be complete no later than 11/15/2017.	Date	11/15/2017
Overall Final Reclamation	Fail	Well Release on Active Location	<input type="checkbox"/>
		Multi-Well Location	<input type="checkbox"/>

Storm Water:

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment

Comment: Straw wattle BMPs have been installed on areas of the east and west end of the well location, as well as section of the access road that was reclaimed. Wattles do not appear to have been installed with good engineering practices, as they do not appear to be sufficiently trenched and back-filled. Advise installing BMP in accordance to good engineering practices.

Corrective Action:

Date: _____

Pits: ☐ NO SURFACE INDICATION OF PIT**Attached Documents**You can go to COGCC Images (<https://cogcc.state.co.us/weblink/>) and search by document number:
