Operator Comments:

EastCo has a gas meter behind the separator and before the combustors. The gas meter indicates we produced about 750 MCF for the month of November from the well; however we sold none and all the gas went though the combustors. When i tried to enter this number in the gas produced i kept getting validation errors.

Gas sold: Required field - i had entered "0"

Gas sold: Prod/Inj (Gas) incorrect calculation.

I changed the form to read "0" gas produced and it went through.
