242499	WELL	PR	12/03/2012	GW	123-10290	SERAFINI GAS UNIT 1	PR

General Comment:

This is considered a "high risk" location and was inspected on that basis. This inspection only indicates conditions as they exist at the time of inspection. It was unclear during the inspection what, if anything, had been done to implement the Supplemental Work Plan. At Time of inspection production equipment was operational and hydrocarbons were being produced. The well on location was S/I.
