Complaint # 200444989

Nature of complaint: Noise

Field Inspector Actions:

On 1-2-2018, I was contacted by complaint specialist Megan Adamczyk in reference to a noise complaint received for 1-2-2018 by the COGCC about possible oil and gas noise occurring in the Windsor area somewhere around the complaints residence.

On 1-2-2018 at approx 1400 hrs I attempted to contact the complainant. I performed an inspection of the area around the complaints home and did not find any active oil and gas activity in the area which could be causing the 24 7 noise the complaint was experiencing as all the operation in the area were all working daylight hours or shut in locations.

All information reviewed and site inspection information were submitted to the COGCC for further review.

No violations of COGCC rules were observed at the time of this inspection

Corrective Action:
