Operator Comments

Due to anti-collision needs and the variability of directional drilling, our as-drilled BHL could be different than the permitted. Per Rule 317.p and the Open Hole Logging Exception(doc#400846343), the CNL was run on the GE POWERS 3N-W26HZ (123-41914).

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
