Operator Comments:

This sundry is being submitted to change the TPZ and BHL. The SHL and the proposed spacing unit did not change.
Due to advances in directional planning since the initial planning of this well, the entry point shown on the deviated drilling plan was calculated to be an approximate location between the intended landing point and top of production zone as depicted on the WLC.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
