General Comments

User Group	Comment	Comment Date
Environmental	A review of information available on COGIS maps indicates that there is no water feature that meets the 100 series definition of a water source within any quarter section in 1/2 mile of the oil/gas well(s) that was not properly addressed by the operator.	01/16/2018
Environmental	From the operator regarding the two water wells in the NW 1/4 of section 13: Hi Arthur, According to the DWR website there are no registered water wells in the NW quarter of Section 13 1N 66W. It looks like those wells are permitted in the NENE. We have sampled Permit 97047--A, it was sampled on 12/18/14 under facility ID 753897. Let me know if you need anything else. Thanks, Tanya	01/16/2018
Environmental	Additional information requested. An email was sent on 1/16/2018 requesting additional information regarding two water wells that were not addressed in the operator's attachment.	01/16/2018
