#### Operator Comments

Due to anti-collision needs and the variability of directional drilling, our as-drilled BHL could be different than the permitted. This well is a conventional horizontal (monobore).

Per rule 317.p- the open hole resistivity logs were run on the Bane 27N2-9HZ (123-41304)

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
