General Comment:

Follow-up FIR for compliance citations Doc# 679903494. All CA's have been performed. Operator representative (Jeremy Fisher) had been in contact with F.I. Schure regarding CA dates and weather conditions prohibiting completion of corrective actions per dates set on FIR. Schure authorized an extension until weather conditions improved. Work has now been completed.

Note to Operator: Well status on COGCC database shows WO (work-over) since Dec. 2007. This well should be TA, submit Form 4 Sundry and update well status with production reporting brought current.
