Corrective Action: _____

Date _____

Overall Final Reclamation _____ Well Release on Active Location ☐ Multi-Well Location ☐

Storm Water:

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
<p>Comment: Erosion is occurring within the northern and northeastern portions of the project area within the diversion ditch. Diversion ditch is full of sediment in flatter areas, and eroding a channel that is approximately 3.5 feet wide and deep in areas with slope where water in diversion has increased energy. See attached photos.</p>						Date: 03/02/2018
<p>Corrective Action: Stormwater controls need to be installed to de-energize stormwater flows within the diversion ditch and flows exiting the well pad. Diversion ditch also needs maintenance. Any damaged vegetation from stormwater management or installation efforts will require re-seeding.</p>						
<p>Pits: <input checked="" type="checkbox"/> NO SURFACE INDICATION OF PIT</p>
