Operator  
Comment:

An updated third party noise model was requested by Ursa to assist with the noise bounceback caused from the western wall. An updated noise report was received from Behrens on 8/1/17 that included the removal of the western sound wall. This report was submitted to the COGCC on 2/7/18 via sundry #401538978. We are complying with this updated third party noise model per the permit conditions/BMPs. Removal of this wall reduced

sound levels to the residential area to the east making our operation better.
