Photo 3: Photo taken from the east end of the location, facing northwest. Photo of interim reclamation in process.

Photo 4: Photo taken from the east end of the location, facing southwest. Photo of interim reclamation in process. Photo also shows areas not reasonable needed for production have been reduced and ripped for compaction alleviation. However, 1003.c requires operator to cross-rip; location appears to have only been ripped once, in one direction rather than cross-ripping.
