Notes: On 1/30/18, Todd responded to my WW inquiry email saying
he was not aware of a WW, but I was free to go look. I
did that morning and found nothing. Only thing there was, was
a hydrant sticking out of the ground just north of the house.
That hydrant is tied into the NWCWD system, so it's not
groundwater. - Dave Castro 1/31/18
