General Comment:
 This is a follow-up final reclamation inspection to Field Inspection Report Document #682401401 and Document #682402766. Operator has requested a bond release on a plugged and abandoned location from 2014. Where corrective actions from the previous inspection report remain unresolved, corrective action dates remain unchanged.

		Multi-Well Location	<input type="checkbox"/>

COGCC Comments

Comment	User	Date
Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Use a seed mixture requested by the surface owner or a seed mixture provided by the local county Natural Resources Conservation Service. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed pursuant to Rule 1004 standards.	binschusc	02/15/2018
