INITIAL ACTION SUMMARY

Description of initial action or emergency response measures take to abate, investigate, and/or remediate impacts associated with E&P Waste.

Impacted soils were taken to the tank battery and put into a permitted earthen berm containment area.

PROPOSED SAMPLING PLAN

Proposed Soil Sampling

Will soil samples be collected as part of this investigation? (Number, type (grab/composite), analyses, and locations of samples):

Soil samples were taken from the remediated pile located in the permitted earthen berm containment pit by contracted persons. The contracted persons will sample the remediated pile every 6 months till the pile meets COGCC passing standards.

Proposed Groundwater Sampling

Will groundwater samples be collected as part of this investigation? (Number, analyses, and locations of samples):
