<p>Comment: Operator has installed a ditch and berm BMP around the perimeter of the location. Portions of the berm BMP along the southern location have not been properly stabilized. An unconsolidated berm BMP is not a proper functioning BMP, as the unconsolidated material becomes a source of potential pollution itself. Operator shall ensure this BMP is properly stabilized as it could be susceptible to wind and water erosion. A follow-up stormwater inspection will be conducted at a future date to ensure compliance with Rule 1002.f.(2) standards.</p>
