3 ☒ CA# 77750

Corrective Action: Stormwater BMPs need to be installed to stabilize erosion in these areas.

Date: 06/30/2017

Response: CA COMPLETED

Date of Completion: 07/19/2017

Operator Comment: After Williams came onto location and removed their remaining line and riser BP installed additional silt traps to repair and prevent the storm water erosion that was taking place on location and rilling or carrying sediment off location. The entire location was re-seeded, mulched and crimped preserving any mature vegetation currently present. See attached

COGCC Decision: Approved pending re-inspection

#### OPERATOR COMMENT AND SUBMITTAL

Comment: BP has addressed the CA around erosion with installing additional silt traps and diversions as well as re-seeding, mulching and crimping.  
The riser, flowline, and pipeline issues are not BP property or responsibility. BP has worked with Williams to address these issues however for the information regarding the start and stop locations of the line COGCC will need to contact Williams as this information has not been shared with BP. The riser and line on this well pad has been removed by Williams.
