**General Comment:**

On February 27, 2018 COGCC SW EPS Jim Hughes attempted to access the Berenergy Corp. Pit Facility ID #107769. This permitted pit was/is historically associated with the Hamm Canyon Federal 14-26 #1 (API #113-06033). Merrion Oil and Gas Corp. is presently listed as the operator of record in the COGIS database although reportedly Paradox Upstream LLC has acquired this well. Due to snow and ice, the road into Hamm Canyon was impassible. Please refer to document #680401071 for the most recent field inspection report of this facility.

Due to snow and ice, the road into Hamm Canyon was impassible. Please refer to document #680401071 for the most recent field inspection report of this facility. The operator of record for this pit facility shall submit a Form 27 Site Investigation and Remediation Workplan to close this pit per COGCC 900 Series Rules. Document #2223930 is the Berenergy Pit Report received by the COGCC in January 1996 with an earthen fenced water disposal pit listed at the Hamm Canyon Federal 14-26 #1 location. Field staff accounts indicate that an open topped tank is currently located at or near where the earthen pit was located.	hughesj	03/01/2018
