COMMENTS

A water source evaluation for pad RU 32-17 identified five potential water sources in a 1/2 mile radius for Rule 609 sampling (four springs and one domestic well). Access to sample the well was not granted. Two of the springs could not be located during field reconnaissance. One spring was frozen over and a sample could not be collected. One sample was collected from the remaining spring (Twinky Bee, facility ID 757220). Please see attached document for details. This sundry applies to API numbers:
