SOURCE REMOVAL SUMMARY

Describe how source is to be removed.

Partially buried produced water vaults will be removed by RamCo or Unlimited.

REMEDIATION SUMMARY

Describe how remediation of existing impacts to soil and groundwater is to be accomplished (i.e. summarize remedial action plan). Provide a brief narrative description including: technical justification, schedule for implementation, estimated time to attain NFA status, plus plans and specifications for the selected remedial action technology.

Any remediation action, if any, is dependent on pit soil sample analysis results from the lab. If lab results show no impacts, the pits will be backfilled. If lab results show any impact, it will trigger an assessment of impact extent for the respective location(s).
