Comment:

Approximately 45'x25' devegetated area located 90' south of modular ASTs overlying what appears to be former skim pit in historical aerial photos dating from 1989 to 8/18/2011. Aerial photos also document 110'x110' pit immediately south of former skim pit area. Both pits appear to have been abandoned and reseeded between 8/18/2011 and 9/17/2012 Google Earth Aerials. See attached.
