### PROPOSED SAMPLING PLAN

#### Proposed Soil Sampling

☒ Will soil samples be collected as part of this investigation? ( Number, type (grab/composite), analyses, and locations of samples ):

Twelve (13) soil samples were collected as part of site investigation activities and thirty two (27) soil samples were collected during excavation activities. Soil samples were collected by Tasman Geosciences and submitted to Summit Scientific under proper chain of custody procedures and analyzed for TPH-DRO, TPH-GRO, BTEX, and Naphthalene by EPA Methods 8015 and 8260b.

#### Proposed Groundwater Sampling

☒ Will groundwater samples be collected as part of this investigation? ( Number, analyses, and locations of samples ):

Groundwater samples were not collected during site investigation activities due to the presence of LNAPL in the monitoring wells. A groundwater assessment will be conducted once replacement monitoring wells are installed.

# REMEDIAL ACTION PLAN

Does this Supplemental Form 27A include changes to a previously approved Remedial Action Plan? No \_\_\_\_\_

## SOURCE REMOVAL SUMMARY

Describe how source is to be removed.

Excavation of impacted soil above COGCC Table 910-1 standards was conducted from February 21, 2017 through March 8, 2017. Twenty seven confirmation soil samples were collected from the excavation.

## REMEDICATION SUMMARY

Describe how remediation of existing impacts to soil and groundwater is to be accomplished (i.e. summarize remedial action plan). Provide a brief narrative description including: technical justification, schedule for implementation, estimated time to attain NFA status, plus plans and specifications for the selected remedial action technology.

A total of 850bbbls of impacted groundwater and 4030 cubic yards of impacted soil were removed during excavation activities. Groundwater within the excavation was treated with 330 pounds of activated carbon to reduce BTEX concentrations in the source area. Groundwater monitoring wells will be installed to delineate dissolved phase BTEX concentrations.
