ComplaintComment: Field Inspector Assigned: Jason E. GomezComplaint Received:Date: 2-26-2018Complaint Contacted:Date: 2-26-2018 Time 1300 HrsLocation #: 319094Inspection Document #: 688400038Nature of complaint: NoiseField Inspector Actions:

On 2-26-2018, I was contacted by complaint specialist Megan Adamczyk in reference to some complaints received by the COGCC in reference to noise, the complaint stated the noise was occurring in the Erie area originating from the Extraction, Coyote location.

On 2-26-2018, I attempted to make contact with the complaint she indicated in her complaint she was experiencing noise and vibration coming from the Coyote drilling location. I performed a complete site inspection of the Coyote location. I reviewed location records, which did not show any abnormal drilling conditions at the time of the complaints. I reviewed third party sound records at the times of the complaint and at no time did the drilling operation exceed COGCC rules according to the sound study information reviewed. I checked the area around the complaints residence at the time of the inspection I did not detect any odors at the time.

No violation of COGCC rules were observed at the time of the inspection of the frack operation nor in the surrounding neighborhood.

All information reviewed and site inspection information were submitted to the complaint specialist for further review.
