Comment:

No further work has been performed since the previous inspection.

Operator indicated, in the submitted FIRR (Doc.# 401405321-Dated 9/15/17), a land owner variance was in process. COGCC Staff reviewed the well and location file and did not find a Form 4 variance request. Operator shall comply with the 1000 Series Reclamation rules and regulations and submit the required variance under Rule 502.b. COGCC Staff indicated in the FIRR response the corrective action remains in place until the Operator submits the variance request; therefore, the corrective action due date remains the same.

Corrective Action:

Submit the required variance via Form 4. Please notify the inspector via email upon the submission of the variance request with the Document Number.
