Hi, Crystal,

I would prefer you wait to submit the Form 5s as complete with the required CBLs. I'm sure we're talking a few days at most.

I appreciate having the engineer's explanation.

Thanks for checking!

Barbara

Hello Barbara,

Our field engineer sent me the email below today. The Form 5s for this pad are due this Sunday. In case I don't get the CBL in time, would you like me to submit the Form 5 without it then forward the CBL as soon as I receive it, or would you prefer I wait to submit the Form until it is complete?

Thank you for your guidance in this matter.

Respectfully,  
Crystal McClain

Good morning Crystal,

Wanted to let you know that I won't have a CBL run on the Papa Jo 2-25 29N3-8HZ before the cement tops are due to the state. There's a Back Pressure Valve stuck in the mandrel hanger, and up to this point our attempts to retrieve it have been unsuccessful. I've got a crew headed back out there this morning to work on it some more but I'm not very optimistic. I'll keep you updated on our progress. Let me know if you have any questions or concerns.

Thanks,

DJ Anderson
