RE: Rule 306.e. Meetings with Building Unit Owners within a Buffer Zone Setback.
Lind 26-D Pad: NENE, Section 26, Township 7N, Range 67W, Weld County, Colorado

Dear Ms. Murphy,

Extraction Oil & Gas, Inc. (Extraction) hereby certifies that it has complied with Rule 306.e, which states that an Operator shall be available to meet with Building Unit Owners who received an OGLA notice or a buffer zone notice pursuant to Rule 305.c. and requested a meeting regarding the proposed oil and gas location. The operator sent notices pursuant to Rule 305.c, and received a consultation request from Brett Janke, Christopher Bradshaw and Christa Gibson, and Clark Whitcomb. Extraction spoke with Brett Jenke on 3/6/2018. He inquired about how long it will take to drill and complete this location and about the specific location of the pad. All of his questions were answered and he seemed very satisfied at the conclusion of the conversation. Extraction attempted to contact and left messages for Christopher Bradshaw and Christa Gibson and Clark Whitcomb numerous times with no response.

Extraction respectfully requests that the Director approve the wells. Should you have any questions or concerns please contact the undersigned at 720.354.4607.

Sincerely,

Kelsi Welch
