Comment:

Corrective Action:	<p>Previous inspections documented that the Tank battery location has not had gravel removed, compaction alleviation performed or returned to crop land. Crop growth at disturbed areas adjacent to the tank battery, areas along access road and the well location is stunted and not reflective of the reference areas, and that this was likely due to compaction concerns. Inspection required operator to perform reclamation in accordance to COGCC 1000 series reclamation rules and requirements. FIRR #401597877 submitted 4/5/2018 states "Corrective action complete"</p> <p>Reclamation does not appear to have occurred at battery; location has not been returned to cropland. See attached photo document. Original CA and CA date remains applicable.</p>	Date <b>10/15/2017</b>
	<p>Perform reclamation in accordance to COGCC 1000 series reclamation rules including, but not limited to, removing gravel and performing compaction alleviation to a depth of 18 inches. All reclamation activities shall be completed no later than 10/15/2017</p>	
Overall Final Reclamation <b>Fail</b> Well Release on Active Location <input type="checkbox"/> Multi-Well Location <input type="checkbox"/>
