**General Comment:**

On January 31, 2018 COGCC Environmental staff inspected well 081-06434. This was an Environmental Inspection, please assure that corrective actions from previous inspection have been addressed. This inspection does not excuse previous Corrective Actions. The weather was overcast, snow covered and 20 degrees. The well was SI at the time of inspection. It appeared that no snow maintenance was being done on the location. There is 2 pits on location; 1 Pit is inside the tank battery, pit was covered in snow, netting was in disrepair, weeds were inside the pit. The second pit was fenced and netted, the netting was in disrepair. There is an area that is fenced in, please provide information on what this area is. The COGCC database show 2 pits related with this well, 100421,100424. By 5/14/2018 please provide an update to kris.neidel@state.co.us on the status of these pits. Netting on pits should be maintained in good working order prior to use of pit.
