

Caerus D09A Pad
API 045 17758
Spill/Release Point ID #454721 (Flowline Spill)

Looking south. Excavated area on the left, near wellheads

Looking east. Area excavated with hydrovac. Pipeline corridor with multiple pipelines difficults excavation.

Caerus D09A Pad
API 045 17758
Spill/Release Point ID #454721 (Flowline Spill)

Pipeline has been repaired. Initial samples indicated some HC impact remaining. Excavation was expanded and sampling was repeated. Samples currently in the lab.

Water at the bottom is remnant of hydrovac activity.
