Comment:

Corrective Action:	Operator has failed to perform final reclamation activities per the previous corrective action FIR. The well and battery location do not meet reclamation requirements. (1) The well location has not been contoured to match the surrounding landscape; rill erosion evident along the eastern cut slope. At a minimum, the Operator shall reduce the cut and fill slopes to prevent further erosion. The cut slope does not have any vegetation establishment. (2) The battery location is not reflective of reference area vegetative conditions and there is gully erosion which continues west, off location. Refer to the attached inspection photos for more detail.	Date <b>03/15/2018</b>
	Perform reclamation in accordance to COGCC 1004 reclamation rules and requirements. Reseed disturbance areas using a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Ensure erosion controls are implemented to stabilize the seeded soil. Final reclamation activities shall be complete no later than March 15, 2018.	
Overall Final Reclamation <b>Fail</b> Well Release on Active Location <input type="checkbox"/> Multi-Well Location <input type="checkbox"/>		

**COGCC Comments**

Comment	User	Date
Note: Form 10 Document #401170749 was approved on 6/20/2017. Petroshare is now the responsible Operator and shall comply with 1000 Series Reclamation Rules and Regulations.	binschusc	04/24/2018
This matter might be referred to Enforcement.	binschusc	04/24/2018
