Response: CA COMPLETED

Date of Completion: 03/20/2018

Operator Comment: The well was spud in 1984 and therefore Extraction contends that this grandfathers in the location and makes it exempt for the 75' setback from the rule made in 1986. However, currently Extraction has a rig on the Davis #1 for a re-entry starting 3-21-18 and when that is complete the rig will be moving to the Shape 1-10 to P&A the well. The Sharpe is anticipated to be plugged within two weeks and all facility equipment will be removed within three months, except for the gathering line riser which may take longer, Extraction is working with the gatherer for removal.
