CORRECTIVE ACTIONS:

1 CA# 116198

Corrective Action: Comply with the Reclamation rules to remove (regardless of ownership) all debris, abandoned gathering line risers, and flowline risers, and equipment within three months of plugging (1/23/2017) the associated facility; comply with Reclamation rules to conduct the required reclamation activities within three months of plugging. All work should have been conducted by 4/23/2017. Corrective action date is being back-dated to when the Operator should have been in compliance with Reclamation rules.

Date: 04/23/2017

Response: FACTUAL REVIEW REQUEST

Basis for Review: Equipment is not owned or controlled by the operator

SRC Energy respectfully requests this inspection report be updated to emove this corrective action. SRC Energy

Operator Comment: believes this is appropriate for the following two reasons: (1) The equipment has been confirmed to belong to DCP Midstream AND (2) DCP confirmed that this is active equipment (launching system) that they are still using and will continue to use. Furthermore, DCP has their own right of way with the landowner for the equipment and the access road to this equipment.

Attached to this request is communication from DCP confirming this is their system and that it is active and is needed. Also attached is a copy of the row of right.
